BFA, Web Design and
Interactive Media

September, 2011

The Art Institute of
Charleston

EXPERIENCE

User Experience Designer *Unum 2014–Present*

- Collaborated with cross-functional agile teams to deploy new features to our plan administrators and a new product comparison tool for our agents.
- Partnered with Information Architects and Developers to successfully relaunch our public-facing sites, as well as launching several other sites, landing pages, web apps, and mobile applications.
- Delivered mockups and production-ready assets for emails, landing pages, news articles, videos, and web advertisements for marketing programs.
- Defined and evolved our visual branding and communicated guidelines via style guides and design tools, ensuring a consistent implementation across digital and print materials, including those managed by third-party vendors.
- Conducted design audits of existing services, providing recommendations and solutions including considerations for WCAG accessibility guidelines.
- Performed formal and informal testing with stakeholders.
- Branded our agent site and guided the evolution of the identity.
- Mentored designers and non-designers on our immediate team through professional development sessions.

Front-End Developer *Unum 2012–2014*

- Developed the front-end of an internal file uploading and sharing system.
- Customized a company-specific version of the Bootstrap framework.
- Serviced incoming tickets through SharePoint for extranet content updates.
- Updated internal and external legacy websites to match current brand implementations.

Designer / Front-End Developer *Web Masons, LLC. 2010–2012*

- Crafted identities, websites, and ecommerce ads for local small businesses.
- Supported front-end development of HTML and CSS.

Developer / Library Assistant *Art Institute of Charleston 2008–2011*

- Designed and maintained the website, print and digital marketing materials.
- Provided patrons with tutoring and support services for hardware and software needs.
